Mushtaq Ahmad Mir

FLUTTER & REACT NATIVE DEVELOPER

mushtaq11917632@gmail.com

+91 7006736101

Jammu and Kashmir, India

PROFILE

Dynamic Mobile App Developer with 5+ years of experience in creating high-performance applications using Flutter and React Native, delivering impactful solutions across various industries such as banking, e-commerce, and healthcare. Expertise in integrating REST and GraphQL APIs, optimizing UI, and ensuring scalable architecture allows for seamless user experiences. Committed to continuous improvement and collaborative development, consistently meeting deadlines and maintaining quality standards. Passionate about leveraging innovative technologies to drive success and enhance application functionality.

EMPLOYMENT HISTORY

05/2025 – Present
Banglore

Senior Mobile Developer, Contineu AI

Lead mobile development for a cross-platform app integrating advanced action cameras (Insta360 X4) with seamless control and media management capabilities.Device Connectivity & Control – Designed and implemented a robust BLE + Wi-Fi bridge to connect mobile devices with cameras, enabling remote start/stop recording, capture commands, and real-time status updates.Media Management – Developed secure, high-performance file handling workflows for listing, retrieving, and downloading large media files via HTTP, including retry/resume mechanisms for interrupted transfers.Camera Communication Protocols – Integrated Open Spherical Camera (OSC) APIs to manage camera settings, trigger functions, and fetch metadata with minimal latency.Architecture & Code Quality – Established Clean Architecture principles, modularized codebase, and optimized performance for scalable, maintainable development.User Experience – Enhanced UI/UX with responsive layouts, smooth animations, and intuitive media workflows, improving overall user satisfaction.Optimization & Reliability – Improved network handling, error recovery, and resource management to ensure stable device connections and faster media transfers under various network conditions.Key Technologies: React Native, Flutter, BLE, Wi-Fi Direct, Swift, Kotlin, OSC Protocol, REST APIs, AsyncStorage, CI/CD, Native Module Development, Media Streaming.

05/2022 – 04/2025
Mumbai

Mobile App Developer, BinaryVeda, Mumbai

- Developed and optimized Flutter and React Native apps, ensuring scalable architecture and high performance.
- Led development on Kotak Bank's finance app, enhancing security and performance.
- Reduced app load time by 30% and improved responsiveness across Android & iOS.
- Integrated RESTful & GraphQL APIs, Firebase (Auth, Firestore, Analytics), and third-party libraries.
- Implemented efficient state management using BLOC, Provider, GetX, Redux.
- Deployed apps on Google Play Store & Apple App Store, streamlining CI/CD pipelines.

- Worked on Banking, Sports, Transportation, and Marketing applications with industry compliance.
- Enhanced QA processes, reducing post-release bugs by 0% through rigorous testing.
- Analyzed user behavior via Firebase Analytics, improving engagement by 25%.
- Ensured secure authentication (OAuth, JWT, biometrics) and best data protection practices.
- Delivered weekly sprints and feature releases, maintaining an agile workflow.

01/2021 – 05/2022
Chandigarh

Mobile App Developer, Code Brew Labs, Chandigarh

- Developed and maintained React Native apps for e-commerce, healthcare, and enterprise solutions.
- Built reusable components, optimized UI performance, and integrated third-party SDKs.
- Deployed apps on Google Play Store & Apple App Store, ensuring compliance.
- Fixed UI defects, crashes, and performance issues, improving app stability.
- Worked with RESTful APIs, GraphQL, Firebase, and CI/CD pipelines.

EDUCATION

08/2019 – 08/2021
Jalandhar

Masters of Computer Applications, Lovely Professional University, Jalandhar

08/2016 – 08/2019
Patiala

Bachelors of Computer Applications, Punjabi University, Patiala

LANGUAGES

English **Urdu** **Kashmiri**

SKILLS

React Native
Flutter
Firebase
Graphql
Dependency Injection
JavaScript (Programming Language)
Redux
Restful APIs
SQLite
WebSocket
Git
Bloc and Provider
Riverpod
CI/CD
Unit Testing
Clean Architecture
